TEL europe is launching at Online Educa Berlin

TEL europe is launching at Online Educa Berlin 2009! This ambitious community of stakeholders in Technology Enhanced Learning (TEL) is an initiative of the STELLAR European Network of Excellence, EU FP7 project (www.stellarnet.eu). TEL europe draws together researchers, teachers, developers, industry, journalists and anyone with an interest in Technology Enhanced Learning. In a joint stand of STELLAR and the Centre of Learning Sciences and Technologies (CELSTEC) of the Open Universiteit Nederland, visitors can meet members of the network, join TEL europe and experience the collaboration platform.

Invitation to join

TEL europe sees collaboration with stakeholders and with the professional press as key to reaching out to join up. Communication and community building are at the heart of TEL europe. The collaboration platform www.teleurope.eu provides virtual tools where members of the network can meet and talk.

TEL europe offers stakeholders opportunities to join Special Interest Groups with leading experts, access to TEL-specific funding opportunities and partnerships, opportunities to engage with best practice in an expert TEL community, access to extensive and interactive Open Archives dedicated to TEL, and more.

Meet the STELLAR team

There is more information in the TEL Europe stand at the Online Educa exhibition. A STELLAR team is available to talk about the vision for TEL europe and to provide more information and practical details about joining the network. Visitors to the stall will be given the opportunity to take part in video interviews, where they will be able to share their interests related to TEL. Last but not least, there is a panel session planned on Friday 4th December from 16:30 to 18:00 in Potsdam 1, discussing the Grand Research Challenges in Technology Enhanced Learning. Check for details the official conference programme.

Contact

Journalists can contact the STELLAR team in Berlin from 1 Dec until 4 Dec, in the CELSTEC booth in the Wintergarten or via mobile phonenumber +31645424706 or +31653765679. Primary contact on location is Fred de Vries. Inquiries by e-mail via ueb@ou.nl.

Note for the press: More information on the Open Universiteit Nederland you find at www.ou.nl or contact Marga Winnubst, tel. +31455762646 of marga.winnubst@ou.nl.

More information on the Centre for Learning Sciences and Technologies (CELSTEC) you find at celstec.org.
