### **Momindum participates to the 2009 Online Educa Berlin Conference**

Momindum offers software solutions based on a unique method to capture, enrich, broadcast and leverage your presentations (classes, trainings or meetings.)

Our products are innovative and unique. They have been awarded the Gold European seal of e-Excellence 2009 and have been short-listed as Most Innovative product at the 2009 E-learning Awards.

Momindum gives companies and universities rich media tools that are collaborative and inexpensive.

With Momindum's solutions, put trainings and classes online available to the users at any time. Create an online knowledge platform where teachers and users can share and learn. Also broadcast live events with interactive features.

Momindum has pioneered in research and development of technologies for taking advantage of the possibilities offered by Rich Media, especially in the domain of online learning.

Momindum will take the opportunity offered by Online Educa Berlin to present its complete range of Rich Media solutions for learning content development, distribution and broadcasting

One of our team members, **Jerome Beauguitte**, will host a conference on "***Rich Media: Innovative Technology for Efficient Learning and Knowledge Sharing***", on December 3<sup>rd</sup> at 4:30 pm
